The objective of this Scopus indexed International Conference on Intelligent Computing and Communication (ICICC – 2025) is to present a unified platform for advanced and multi-disciplinary research towards design of smart computing, information systems, electronic systems. The theme focuses on various innovation paradigms in system knowledge, intelligence and sustainability that may be applied to provide realistic solution to variegated problems in society, environment and industries. The scope is also extended towards deployment of emerging computational and knowledge transfer approaches, optimizing solutions in a variety of disciplines of Computer Science and Engineering, Electronics and Communication Engineering, Electrical and Electronics Engineering, Electronics and Instrumentation Engineering. The conference proceedings aim to publish unpublished work pertaining to the topics mentioned below. The conference is scheduled to be held on September, 2025 at CMR Technical Campus, Hyderabad, Telangana, India

- Artificial Intelligence
- Computational Intelligence
- Cognitive Computing
- Cloud & Fog Computing
- Deep Learning
- Intelligent Control Agents
- Internet of Things
- Machine Learning
- Big Data Tools & Technologies
- Search Engines and IR
- Optimization Algorithms
- Cyber Security
- Mathematical Modeling
- Image and Video Processing
- Satellite and Optical Communication
- Geographics Information Systems
- Bio Informatics
- Data Analysis and Visualization
- Real Time Operating Systems
- Robotics
- Mobile Computing
- Other topics related to ICICC Theme
